

Derrick man Bob Werenka of Lloydminster has a safety strap attached to his body as he climbs a drilling rig a half mile north of Highway 13 and east of Metiskow. Management at the site would not say if they were drilling for oil

or for gas—but conceded that it was for one of those precious resources. Three other fellow-workers continued duties far underneath Werenka as he went up to his platform at 8:57 a.m. ©PROVOST NEWS PHOTO.
