CONNECTING:
 Village of Denzil National Communities in Bloom Finalist

The Village of Denzil, a finalist in the one to 1,000 population category of the 2008 Edition of Communities in Bloom, received a four bloom rating and a special mention for people power. The results of the national challenge were revealed at the annual awards ceremony on Saturday. Denzil is a community of volunteers that makes good things happen. Residents and members of the business sectors work together with amazing results. The project of an abandoned main street property that became a beautiful passive park impressed the Communities in Bloom judges. The project started in May and was completed in July. The people power of this community is truly inspiring.

Bed Races Entertain Spectators at U-Nite Night
 U-Nite Night No. 3 held on August 28 was a successful and fun-filled night. Six beds, one gurney and seven teams entered the Bedlam Bed Races. Maxine Girletz of Cereal and Dianne Tracy of Oyen judged the beds for their decorations. Timers were Diana Walker and Joel Snell.

Divers Inspect Water Reservoir
 While Consort may not be an underwater diving mecca, two divers from Aquatech (front page photo) were in town last Wednesday for a swim in the water reservoir. Aquatech was hired by Stantec, the engineering company in charge of the water pipeline project, to clean and inspect our underground storage tank on the west side of town. "The reservoir was actually quite clean and in good condition," Don Munroe, construction manager of the water project, told the Enterprise. "There will be some upgrades required when the pipeline comes in, but we will do them along with the tie in."

M.D. OK's 28 Enbridge Road Crossings for Clipper Pipeline
 The regular meeting of the Municipal District of Provost No. 52 for September was held Thursday, September 11, with all councillors present in the morning and one councillor absent in the afternoon. Following is an unapproved summary of the meeting. Council authorized the following: Stewart, Weir & Co. to prepare a resource road grant application for granular base course, asphalt concrete pavement and other work on Range Road 14 starting near Township Road 384 and continuing south approximately three miles for the program's deadline date of November 30, 2008. To allow Enbridge Pipeline to open cut 28 road crossings (Enbridge will dig a trench through the road surface on undeveloped road allowances and then later, fill in the trenches).
