

## At Amisk

On November 13 students from Grades K-3 at Amisk School participated in what Guinness World Records term the “World’s Largest Sport Stacking Event.” The students were up stacking and down stacking various pyramids and patterns for 40 minutes, all combined with a variety of fitness activities for a fun filled day.

Two Amisk School students (left), among others, compete in the “World’s Largest Sport Stacking Event.” According to Guinness World Records, 555,932 stackers participated last year to break the previous year’s Stack up record of 483,658. Tens of thousands of stackers were expected to contribute their sport stacking skills from countries around the world—more than 40,000 schools and youth organizations. Sport stacking has been termed a “track meet for your hands at warp speed.”
